

## Our Products

Pure 100% Australian salt which offers the health benefits associated with mineral springs and spas. This Salt is produced in Australia by natural solar evaporation of natural salt water brines, harvested and double washed.

### Perfect for:

- Fundraisers, Stall Holders, Party Planners and anyone wanting to earn more by bagging salts themselves
- Salt Makers that want the convenience of bulk premixed coloured salts
- Wedding Favors, Gifts, Display Jars, or whatever you like.

**Use:** Footbath, Handbath, Full bath, Spa (refer manufacturers instructions as earlier model spas may not be suitable).

### Packaging:

Visit [www.creativesalts.com.au](http://www.creativesalts.com.au)

## Storage

Keep in a non-humid area to avoid your salts absorbing moisture. Keep out of sunlight as colours and scent can fade. Salts are best kept in an air tight container.

If salt absorbs moisture from the air you can dry them out by placing on paper towels in a non-humid area.

### Shelf Life:

3 months – bath salts with botanicals, moisturising oils & essential oils.

3-6 – coloured and fragranced bath salts

12months – coloured bath salts

**Timeframes are conservative. You may find some fragrant bath salts will last 12 months or more.**

**If you buy a salt product containing 100% pure essential oils from any supplier, it will have a limited shelf life. Some suppliers may add a fragrance (synthetic scent) to extend the shelf life of their bath salts, which is ok if it is to achieve the scent they want but it will not be a natural product.**
